Foundations of Reading Acquisition and Dyslexia Benita A. Blachman, 2013-03-07 The chapters in this volume are based on presentations made at a recent conference on cognitive and linguistic foundations of reading acquisition The researchers who participated have all made contributions to the theoretical and empirical understanding of how children learn to read They were asked to address not only what they have learned from their research but also to discuss unsolved problems This dialogue prompted numerous questions of both a theoretical and applied nature generated heated debate and fueled optimism about the important gains that have been made in the scientific understanding of the reading process especially of the critical role played by phonological abilities

Reading Fluency Timothy Rasinski, William Rupley, David Paige, Chase Young, 2021-01-21 Reading

fluency has been identified as a key component of proficient reading Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement Despite the great potential for fluency to have a significant outcome on students reading achievement it continues to be not well understood by teachers school administrators and policy makers The chapters in this volume examine reading fluency from a variety of perspectives The initial chapter sketches the history of fluency as a literacy instruction component Following chapters examine recent studies and approaches to reading fluency followed by chapters that explore actual fluency instruction models and the impact of fluency instruction Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention Two articles on assessment one focused on word recognition and the other on prosody expand our understanding of fluency measurement Finally a study from Turkey explores the relationship of various reading competencies including fluency in an integrated model of reading Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction
